NUMBER 188.

## REVOLUTION BREAKS OUT AFRESH IN RUSSIAN CITIES

Reits Throughout the Empire  
Mark Pre-Arranged Plans  
of Revolutionists

St. Petersburg, Aug. 16.—A war of terrorism which the fighting organization of social revolutionists declared immediately after parliament was dissolved, seems to have begun in earnest. From all parts of the empire the telegraph brings the same story of attacks on police officials and all classes, accompanied in the majority of cases by plunder. Polish revolutionists are very active. There is a veritable reign of terror from Vistula to the German frontier. The Novoe Vremya heads its list of murders and other crimes, "St. Bartholomew's night in Poland." The resumption of terrorist activity on a large scale reminds the task of the government more difficult and darkens the prospects of the present ministry accomplishing anything in the direction of an amelioration of the situation. While for the moment the campaign of terror is bound to increase revolution of more conservative public opinion against the wild excesses of extremists. It is at the same time certain to force the government to rebuke the measures of repression which it is claimed, will in the end, drive public sympathy back to support almost any measure of relief. Some of the despatches from Poland assert that the outbreak of terrorism is in retaliation for the wholesale arrests and repressions of the government.

It is stated that during the massacre at Warsaw, thirty-five policemen, seven gendarmes and four soldiers were killed, and that eight policemen, two sergeants, two gendarmes, and six soldiers were wounded. The soldiers, in replying to the attacks on the police with volleys, and charging the crowd, killed thirteen men and two women and severely wounded seventy persons and slightly injured ninety-five. During the night shots were heard in different parts of the city, but casualties have not been ascertained.

The Polska Gazeta, and Dzwon Polska, organs of the Polish Nationalists, publish strong leading articles denouncing the state of anarchy which the Socialists are producing in Poland whose object the papers declare is not the attainment of freedom, but bringing on a civil war.

At Plock, Prussian Poland last night five policemen were killed and two wounded. The assassins escaped.

At Moscow, while the constitutional debate was in progress at the house of Prince Dolgoroukoff today, a sergeant of police charged and ordered them to disperse, but on the representations of Prince Dolgoroukoff to the pretect of police that the meeting was of a private nature, the order was allowed to continue. It is the intention of the constitutional democrats to issue a campaign text book containing articles by M. Rodichev, Prof. Paul Mikulskoff and other leaders.

Acting with a definite plan and at a signal the Terrorists and Revolutionists inaugurated a carnival of murderous attacks with bombs and revolvers on the police and troops in various cities in Poland, echoes of which are heard from Ufa, Yalta, Kiev and even far away China, where the Chief of Police Gornchenko was slain almost on his own doorstep.

The revolutionists' campaign flames up at Warsaw, where many were slain in the streets and many more wounded. Among the killed according to the latest official advice were two sergeants of police, a Hebrew merchant and a woman. The returns are not all in. Policemen and soldiers were shot down like rats in the streets. Their assailants were travelling in small bands and almost all escaped. The only capture was a band of ten men who had invaded a vodka shop and killed a soldier. These were bagged by a passing patrol. Bombs were employed in an

## RAISULI IS ON THE STAGE AGAIN

Noted Moroccan Bandit Fights Battle  
With Sultan's Troops

(Special to The Bulletin).  
Tangier, Morocco, Aug. 17.—Chief Raisuli, the noted bandit and capturer of Ion Perdicaris, who has terrorized the region in the vicinity of Tangier, has fought a pitched battle with the troops of the Sultan close to the city. Many casualties are reported. As the result of the battle several European citizens are reported to have been placed in a critical position.

## CROPS ARE IN GOOD CONDITION

C. N. R. Crop Report is Optimistic—  
Grain Plump and No Serious  
Damage

(Special to The Bulletin).  
Winnipeg, Aug. 17.—The weekly report of the C.N.R. shows that all crops along the line are in good condition. Cutting is in progress in many places and no damage of a serious nature has been reported. Grain is well filled and plump. In some districts help is scarce but influx from the east is likely to improve conditions.

## TREW MATCH INTO GAS TRENCH

And Flames Roared Up in a Hamilton Street

(Special to The Bulletin).  
Hamilton, Aug. 17.—A smoker threw a lighter match into an open natural gas trench at the corner of James and York streets. There was a leak in the feed main, the gas ignited, and flames shot up as high as the city hall. Workmen were more or less burned and P. A. Tardes is seriously burned. The firemen had a serious task smothering the flames.

## GALICIAN SHOT NEAR BRANDON

Row in Construction Car Has Probably Fatal Consequences

(Special to The Bulletin).  
Brandon, Aug. 17.—The victim of an early morning shooting affray at Kemmay is Stephane Kuznier, a Galician laborer, 41 years of age. He is still alive but his condition is grave. Not much light has been thrown on the crime and much mystery attaches to the motive of the shooting. Robbery seems to have been the intention. Detective Brownley is investigating.

Winnipeg, Aug. 16.—A Galician laborer was shot by an unknown man early this morning in a C.P.R. boarding car at Kemmay Junction, Man. He got up in the night on hearing some one moving about the car in which he and several companions were sleeping. A struggle ensued and he received a revolver wound in his chest. He will not recover. The police are investigating the case.

## FIRE CHIEFS WILL CONVENE

Firemen From Sacramento to Dawson City Will Meet in Calgary

On Aug. 28, 29, 30 and 31 there will assemble at Calgary, the Pacific Coast Fire Chiefs' association, a body of men drawn from as far south as Sacramento and as far north as Dawson City and as far east as Winnipeg.

The object of this meeting is the discussion of methods in fire-fighting, fire appliances, water supplies, construction of buildings to resist fire and all matters of interest connected with the protection of lives and property from fire.

This convention should prove of great interest to the cities and towns throughout the west, as the exchange of ideas amongst men of wide experience in fire appliances and fire fighting will furnish many interesting and beneficial hints in the conducting of fire departments.

In connection with this meeting there will be a grand celebration on Aug. 29th, consisting of firemen's sports, championship horse race, bucking contest, wild steer roping, besides many interesting athletic events. Special rates will be given for delegates and also for those wishing to attend the sports on the 29th.

Any information may be had by applying to Jas. Smart, Chief of H. B. Wilson, secretary, Calgary fire department.

## COLONIAL CONTRIBUTION

(Special to The Bulletin)

London, Aug. 17.—A return issued today gives the amounts of the different colonial contributions to keep up the Imperial Institute, as follows: Canada, \$6,610; New South Wales, £5,552; New Zealand, £2,029.

Photo by Collins, Claresholm.

Cut by Beron, Edmonton.

The Legislative Party at Claresholm Station.

## THE LEGISLATIVE TOUR

The recent trip of the members of the legislature through southern Alberta was one of the most important moves yet made by the new parliament of Alberta. A thorough knowledge of the province by every member of the legislature is one of the essentials of satisfactory government and no adequate knowledge of the resources and prospects of Alberta can be gained except by visiting every part of it.

To many the trip was a revelation. Prosperity is so general all over the province and the future so promising that every one is apt to think that he has been fortunate enough to select the very best section in the West. While this general opinion is the hope of the West, yet on the other hand it is apt to make our representatives sectional. The result of this trip is to dispel all such feeling. The members returned from the excursion satisfied with their own locality but also satisfied that the resources of this province are greater than they ever anticipated.

Nearly every member of the party had been south as far as Calgary so the interest began in the trip south of that city. When the grain fields in the vicinity of Okotoks, High River and Nanton were reached the party began to realize that they were in the south country and if it was not flowing with milk and honey it was at least abounding in fields of oats and wheat which promised a generous yield. At the town of Claresholm the first important reception was held. The band was out and the citizens assembled to greet the members, show them samples from the grain fields and give information about the country. Mr. Collins, the local photographer, was on hand and we present our regards with his picture of the party. The cut was made in this city by Byron, of 623 First street, who is one of the best photo engravers in Canada.

The run down to the Crow's Nest country gave the party a look into the mining interests of the province. The zinc smelter was inspected and the coal mines and coke ovens at Coleman were interesting features of the trip. The party was much impressed with the possibilities of the industries of past towns and the general opinion is that at no very distant date the towns of Frank, Blairmore and Cole-

man will be numbered one great industrial city that will be a source of wealth and pride to Alberta.

The town of Pincher Creek, the home of John Macleod, M.P., gave the party a hearty reception, and the drive past the grain fields of this rich agricultural district was much enjoyed. Pincher Creek district well deserves its reputation as one of the best grain producing sections of the province and is one of the picturesque spots in Alberta. Macleod was visited in the evening but if the prosperity of the town is to be gauged by its hospitality then its future is assured. The legislative special was the first train to pull into the new station with which the town has been recently blessed.

The Lethbridge and Cardston districts were next visited and the party got a sight of the rich irrigated lands of the south. There was no doubt in the minds of the party as to the efficacy of water in the production of crops.

The towns of Stirling, Raymond, Magrath and Cardston were visited. The three former are reached by water and the flowers, trees and shrubs about the village homes speak eloquently of the fertility of the soil and the industry and good taste of the settlers. The manner in which these towns are growing trees to be transplanted is a credit to their enterprise and ten or fifteen years hence they will be well repaid for their trouble.

These four mentioned towns vied with each other in the heartiness of their receptions to the visitors. The citizens greeted the legislators with a kindly hospitality that will not soon be forgotten and spared no effort to show the members about the country and give them a proper impression of the splendid resources of their part of the province.

## AN IDLE YARN

"Burning the Newspapers," is the headline of an article in the Journal which goes on to say that newspapers are being burned wholesale by the post office employees. Postmaster May was seen by the Bulletin and characterized the article as an irresponsible falsehood. He says that no papers are destroyed until they have been in the office at least two months and have not been called for.

Letters and papers are sorted daily. Occasionally the staff gets behind for a day or two but the work is kept up pretty well. Two more experienced clerks are being put on in a week or two which will facilitate the work. Postmaster May has been making an earnest and successful effort to get the office in shape and is getting it systematized, and if the Journal had any regard for its veracity it would not charge the post office with the wholesale destruction of mail matter without at least making a casual enquiry as to the truthfulness of a yarn it picks up on the street.

# OUR SALE AND WANT COLUMN

Safe And Sound Investments For A Quick

Turnover At A Reasonable Advance

## \$3,000

Will purchase a choice FARM with 80 acres in crop, one third of the crop goes with the farm. Good houses, splendid water and well fenced. If you are looking for a good farm near Edmonton ten miles out, go and see this proposition. You are sure to purchase. Terms \$1500 down and balance in six, twelve and eighteen months at 8 per cent.

## \$47,000

Splendid block, McDougall Avenue, reasonable payment down and good terms. This property in two years will be worth \$75,000.

## \$560

Choices building lot on Sydenham Avenue, get after this quick, or you will lose it. Half cash, balance six and twelve months.

## \$15,000

Eleven lots on Jasper Avenue with buildings, here is another chance to make a few dollars quick. Have an interview with us and we will tell you all about it.

## \$20,000

Will handle 150 feet frontage on McDougall Avenue near the post office; this is another one of our snags in the centre of the city. Reasonable payment down, Terms to suit the purchaser. The house on this property brings in good rent.

## \$1500

Each, 2 View lots, and should the Parliament buildings be erected near the old H.B.K. Fort, these lots will be worth several thousand each. Easy terms.

## \$1350

This is the amount required to purchase a nice corner position and two lots on Government Avenue close in. The reason of this sacrifice is on account of the owner having to make other payments which are past due.

## \$7.50

Per acre, 30,000 acres situated immediately south of Birch Lake in the Vermilion. Very small payment down and the balance to suit, nothing less than 10,000 acres sold.

## In Farming Lands

We have some dandy propositions in well improved farms, and also in wild lands near the rail and City of Edmonton. It will be more satisfactory to use an ad to you if you will call and have a chat with us.

## We Have What You Want

Always glad to give information pertaining to Edmonton and District to land seekers or visitors. Come and see our large Grain Exhibit as seen at the Edmonton Seedland Provincial Fair. Maps, Literature, Booklets, View Albums, Gratis.

## CORRESPONDENCE

## A CORRECTION

Fort Saskatchewan, Aug. 15, 1936.  
Editor Bulletin.

Dear Sir:

In your issue of yesterday in reporting the match between Fort Saskatchewan Cricket Club and Strathcona, you refer to the former as a team of the R.N.W.M.P. As a matter of fact the club as now constituted consists entirely of civilians, five of whom were included in the team on Saturday last. There are five more matches to be played and I should feel obliged if you would kindly make a note of the above facts.

Yours truly,

CECIL B. J. MOUNT,  
Sec. Treas. Fort Saskatchewan Cricket Club.

## DREYFUS' INNOCENCE CLEARLY PROVEN

To the Editor of the Bulletin.

Dear Sir:

Believing that a number of your readers will be delighted with the decision of the supreme court of France in restoring Dreyfus to his rank in the French army.

It will be remembered that about ten or twelve years ago a young captain of the French army named Dreyfus was accused of revealing secrets of the French army to the military officers of the German army, thereby giving them undue advantage. He belonged to a wealthy Hebrew family living in France, and was rather a smart young fellow and thereby became the envy and dread of his fellow officers. Let him should catch up upon them too soon, they formed a conspiracy to ruin him for life and by forged lying documents had him tried by court martial, condemned and sentenced to banishment in a lonely French island called the "Devil's Island" where for several years he underwent the greatest humiliation and suffering it was possible to inflict upon him.

During this time his friends, and especially his wife, believing in his innocence were using every effort to get him a new trial, which was finally granted, when he was again tried by military law and condemned to ten years imprisonment in a fortress.

His friends still believing in his innocence got him a third trial when he was pardoned only he had to live in a foreign country and not set his foot in his native land. His friends still clinging to him and procuring fresh evidence got the case before the supreme court with forty-nine judges sitting on the bench when his innocence was not only clearly proven and he restored to his rank in the French army, but on the closing day of parliament he was raised to the rank of major of artillery with his name on the list of candidates for the cross of the Legion of Honor.

Thus ended one of the most disgraceful ordeals that has ever occurred in military circles during the past half century and every one who has followed this scandalous affair from first to last will be delighted with the decision of the Supreme Court of France.

Yours, a Lover of Fair Play.

Advertise in the Bulletin---It Pays

**Western News**

**Disbury Pioneer:** The Saskatchewan Masons are to hold an organization meeting of the Grand Lodge in Regina this week. They withdrew from the Manitoba superior body, as it is felt that better representation and the interests of masonry will be better served by having a Grand Lodge located in that Province.

**Saskatoon Phoenix:** The baseball team of the big traffic bridge over the Saskatchewan river at Saskatoon, has been awarded by the Provincial Department of Public Works to the Canadian Bridge Co. of Walkerton, Ont. The contract price is slightly in excess of \$64,000. This amount added to the cost of the concrete superstructure, which is under contract to John Gunn & Sons of Winnipeg, brings the total cost of this bridge, the first of the big steel bridges to be built by the Saskatchewan Government, up to about \$103,000.

**Vermilion Signal:** The Methodist church at Mannville was opened last Sunday service being held both morning and evening. Rev. A. S. Tuttle, B. A., was the preacher. A lecture of services was the excellent singing by the Mannville choir, and the solos and duets of Messames McAlister, Mayhew and Mr. Moore. On Monday evening a very successful social was given, the financial results for the two days being \$10.00.

**Vermilion Signal:** A Signal representative paid a visit to the home of S. H. Rosebrough on Monday evening. He was shown apple, crab, cherry and plum trees set out this spring and growing vigorously; also various garden fruits such as raspberries and currants.

**Calgary Herald:** A Calgary merchant who has made a life study of the big business, in an interview with the Herald stated that it was his impression that the shipment of live stock would soon give way to the shipment of dead meat. He foresaw a great market for meat in Spain, France and Germany for the Canadian province of Alberta. He stated that the market for live stock is not so good as it was some time ago, and that the market for meat is not so good as it was some time ago.

**Phonics, Saskatchewan:** For the past two years the Phonics school here has refused to pay school taxes on their claims that they are not in a school district. Now steps are being taken to collect in court for the taxes of the past and present years and with fair hope of success. Though here for some time they have taken steps to form a school district in their village of from one to two hundred people.

**Okotoks Review:** Jas. Hoggie has laid the foundation for building up a pure bred herd of Shorthorns by purchasing at a high figure seven head of registered cattle. They are fashionably bred and exceptionally good females and should in a short time under his care and attention which Mr. Hoggie is well able to give them become a herd that will hold their own in the best of company.

**Wetaskiwin Post:** The fish and game clubs of Victoria and Vancouver, B.C. have for years been importing game birds, notably English partridges, pheasants and quail, from time to time. Funds have been subscribed, and it has now been decided to import black game, capercaillies and other birds, which will necessitate a large expenditure, but heretofore. The birds will be put in such localities as are considered by the committee most favorable to the success of the experiment.

**Wetaskiwin Post:** Our freight service is getting better all the time. It was noted that the Canadian mail contains a strong article on the subject which we believe will be endorsed by almost everyone who has occasion to ship or receive freight. Part of a campaign for the Post from Toronto is still missing, and the other day we had to pay express charges on a package. The Canadian Express says, come down from Strathcona by freight. This condition of the mails and packages of paper and stationery which we receive is a great deal better than it was a few weeks ago. The Canadian Express is doing a great deal of business in the handling of freight. Frequently we have observed large piles of tubs of butter left out in the sun instead of being placed under cover.

**Medicine Hat Times:** At last the directors of the Rural Telephone Company have received something definite from the Government. Mr. W. C. Harris had an interview with Hon. Mr. Cushing, Minister of Public Works last week, when Mr. Cushing gave verbal consent to the construction of the line over the Government road allowances to points in the Cypress Hills country, and said that written authority would be issued at once from Edmonton. All interested in this movement will be glad to learn that there is a prospect of the line being constructed during the coming fall.

**At the Masonic convention** held at Regina on August 9th, it was decided to form a Grand Lodge of Masons for the province of Saskatchewan. The lodge was duly organized and the following principal officers were elected: Grand Master, H. H. Campkin, of Indian Head; Deputy Grand Master, C. O. Davidson, of Prince Albert; Grand Senior Warden, H. Jagger, Moose Jaw; Grand Junior Warden, Rev. W. B. Tait, Qu'Appelle; Grand Treasurer, A. Sheppard, Regina; Grand Secretary, Dr. Shaw, Regina; Grand Grand Master, A. H. Smith, Moose Jaw. The rank of Past Grand Master was conferred upon John McKechnie, of Winnipeg, who is Grand Master of the Grand Lodge of Manitoba, and on J. O'Leary, of Winnipeg, and Sheriff Murphy, Moose Jaw, both of whom are Past Grand Masters of the Grand Lodge of Manitoba.

**EDMONTON RIFLE ASSOCIATION**

The usual practice took place on Thursday evening, August 16th, but on account of the light falling rapidly the 500 yards could not be negotiated. The following scores were made:

	200	300	Total
C. C. Forester	30	38	68
J. E. Wise	17	23	40
W. V. Forrester	17	19	36
W. A. Michael	15	122	27
J. E. Clarke	14	14	28

P. Anderson and A. Cameron also put on 21 each, using the Meulicher and Savage rifles.

The annual class firing will be commenced on Saturday the 16th, seven rounds at each of the following: 200 yards prone, 300 yards kneeling, 300 yards prone, 200 yards kneeling, 500 yards prone, 600 yards prone, 200 yards rapid. Members are requested to endeavor to complete their course as soon as possible.

**FOR COOL EVENINGS**

Dressing Particularly for the Damp Nights.

For spring and early summer wear, for cool evenings when extra outside clothing is welcome, the top coat holds its undoubted place. The Semi-ready coat top coat has that distinctive touch which gives the wearer all the individuality and culture in dress which may desire. Semi-ready, as good as new. The Semi-ready wardrobe is always correct in style. Kelly & Moore, sole agents.

## THE CITY AND THE PENITENTIARY RESERVE

The holiday season is on, one commissioner is at the coast and another is merely holding down the job until his resignation goes into effect, but neither the hall of the vacation season nor the depleted condition of the commission has noticeably lightened the volume of civic business and the city council confronted several matters of more than usual importance on Tuesday evening.

Probably the most important of these was the question of the re-transfer to the Dominion Government of twenty-five acres which formerly formed part of the penitentiary reserve and which was sold to the city by the Department of Justice some time since. The department claims that the city acquired the property on the understanding that it was to be used as a site for the C. N. R. terminals, that it has not been used for such purpose and should in consequence be given back to the Government at the price paid by the city.

The net result of the discussion on Wednesday evening was a proposal made by Ald. Smith and supported by Ald. Manson that the city should acquire the remainder of the reserve and hold it as an area available for factory sites, the penitentiary being removed to a site further down the river.

There is practical wisdom in the proposal. That the city should secure such area is one of the few plans available for securing the suitable location of manufactures and that the land should be procured at an early date is not less desirable. The property in question is admirably situated for such purpose and equally well situated property could probably not be secured elsewhere. Then, too, the section of the city in the neighborhood of the reserve is settling rapidly, and with the extension of Jasper avenue across the property residences will doubtless soon be erected beyond the reserve. The property will therefore in the course of a few years be practically surrounded by the city—a situation not altogether desirable for a prison, but decidedly favorable for a manufacturing district.

But there are obstacles of no small dimension in the way of the proposal. The cost to the city, supposing the land were obtained at the price paid by the Government, would be considerable, though the refusal of the city to return the northern portion for the price paid the Government could scarcely be advanced as a reason why the Government should turn over the remainder of the reserve at the cost to the city. The price of the land, however, could doubtless be recouped in future by sales of sites to manufacturing concerns. A greater difficulty is the fact that a costly building has been erected on the property, a building not available in its location for civic purposes, and from its special construction not readily convertible

into a commercial establishment. More than this the penitentiary is now actually occupied, and to carry out the proposal would mean either that the transfer of the property to the city must be delayed until a new home is provided for the convicts or that these must be transported elsewhere pending the completion of the new jail. Beside this is the question as to whether a site more remotely situated would be equally desirable for the penitentiary—which is probably the viewpoint from which the Government would examine the proposal.

These difficulties, however, need not necessarily be insurmountable, and the cost and advantages of the proposal might well be gone into by a committee of the council.

## HOW THE MANUFACTURERS SHOULD BE RECEIVED

About the middle of next month Edmonton will be visited by the Canadian Manufacturers' Association, a body of twenty-five representatives of the coast on their annual outing. The visitors will be, agreeably entertained while here, and without saying for Edmonton has established a record for the cordiality of her reception to parties of distinguished tourists. The men comprising the present party are quite as worthy a fitting respect to those who have been previously recipients of the city's hospitality.

But Edmonton has a practical as well as a sentimental interest in the visit of the manufacturers and this practical concern should be a dominant factor in determining the manner of their entertainment. While it is remembered that they are guests seeking recreation and novelty it should not be forgotten that they are also manufacturers and that men of this class are particularly liable to combine business with pleasure if the proper encouragement is given them. Edmonton needs manufacturers and the visit of this party if properly utilized should help to supply that need.

While the need of factories should determine the character of the reception it should not be the outstanding fact of the reception. What should be impressed on the men that makes things is not that Edmonton requires their factories, but that their factories would be very profitable institutions if located in Edmonton. To emphasize the city's need of manufacturing establishments would be to invite a procession of factory owners seeking the sites, bonuses and exemption from taxation as inducements to locate factories here. No encouragement should be given such pilgrimages. On the other hand every advantage which the location of the city and the resources of the country present to the manufacturer should be brought before the visitors in as practical and impressive a manner as possible. The cheap coal and the water power available here should be pointed out; full and reliable information provided; then in convenient form as to the timber resources, the grain and animal products easily available as raw material for manufacturing industries; accurate statistics should be compiled of the population of the tributary district in which the market for manufactured articles would be found; the prosperous condition of this population clearly represented and a reasonable calculation made of the increase in this population which may be expected within the next five years; and an accurate and impressive representation should be furnished of the railway projects which will afford direct and easy communications to all parts of the district. All these things the manufacturers probably know in a more or less vague way, but the opportunity should not be lost to refresh their memories by a reasonable presentation of the actual conditions while they are on the spot.

Nor should the manufacturers be allowed to indulge the belief that the opportunities now before them will always be open. To suppose that a rapidly developing district possessing such area and resources and now being opened up by adequate railway facilities will continue to freight its manufactured products across a continent is a mistake and that it is a mistake should be clearly represented to the manufacturers. Our attitude should be that we have special opportunities for manufacturers, that we would prefer to see these opportunities taken up by Canadians, but that if the Canadians decline to accept them we propose to look elsewhere without delay.

Such reception should require a large amount of preparatory work would entail some expense and could only be made efficient by co-operation and thorough organization. But if the work is well done and the money properly spent the rewards should be ample. There is now a clear month in which to prepare and the city council and the board of trade might well get together and plan the undertaking forthwith.

## The Manchester House

(ESTABLISHED 1890)

## The Question of Children's Shoes

Is an extremely important one, as so many mothers know. It is sometimes very hard to get a shoe that will fit a child's foot properly, and often requires a large stock to choose from. We make a specialty of Children's Shoes, and as we carry a large stock we are usually able to find a shoe that will please our juvenile customers.

**INFANTS' SOFT SOLE SHOES**  
In tan or black, 4 to 5 per pair, extra for white, 6 to 7 per pair.

**CHILDREN'S SLIPPERS**  
We carry a good range of children's slippers, all sizes, and several different prices.

**CHILDREN'S PATENT TIES**  
For dress wear, a very durable patent tie, sizes 11 to 12, per pair \$1.00.

**SHOE DRESSING**  
We carry only the best liquid and paste dressings, in all colors, for black, gun-metal, tan, brown or white shoes, and will promise you that any dressing you buy here cannot possibly injure the finest shoe.

**MISSIE'S SPRING HEEL SHOES**  
We show a special line of missie's spring heel shoes, sizes 11-2 to 5, fine Douglas, with patent tip, \$2.50 and \$3.00 per pair.

**INFANTS' MOCCASINS**  
Infants' fancy soft sole moccasins, in colors, 2c and 4c a pair.

**CHILDREN'S BAREFOOT SANDALS**  
In an extra good make, all sizes, 5 to 12-2.

**BOYS' LAZARUS SHOES**  
A fine range of sizes 6 to 10, 11 to 12 and 1 to 5.

**CHILDREN'S SCHOOL SHOES**  
We carry a line of Children's Shoes, made especially strong to stand hard, every day wear.

**KANY SLIP SOLES**  
A large number of our Children's Shoes in the smaller sizes are made with a special sole that will not slip. This is a great advantage and cost no more than the shoe made with an ordinary sole.

**YOUR INSPECTION**  
Of our shoe stock is invited at any time convenient to you.

## Western Items

A wagon, containing \$200 worth of goods belonging to the Prince Albert Flouring Co., which was being pulled across a rude bridge over the Little Red River, slipped through and was lost.

John Layton was drowned at Saskatoon on Sunday.

An attempt was made by some unknown persons to blow up the residence of John Scott of Lethbridge with blasting powder.

James Hockin, of Lacombe, was seriously injured by being thrown in front of a mower.

There are 300,000 settlers in the west who belong to the non-English races, according to Rev. D. B. Harkness, superintendent of non-English missions for the Baptist church in the west.

Speaking of the legislative trip, the Calgary Herald says:

"Perhaps the best result of the trip is that north and south will be more harmoniously joined together. There is no cause for rivalry, and no ground for jealousy if the two parties of the province treat each other as pioneers. One of the greatest results has been to knock out an impression which many northerners have held that Southern Alberta was an arid region, in which a lot of foolish people who had settled there would be starved out by the first dry season that came along. Another impression has been affected in the north that Southern Alberta was an insignificant corner of the country without 'much to it' anyway."

Southern Alberta has a million dollars invested in coal mines, another million in a cement factory, a million in a sugar factory at Raymond, and a million in a zinc smelter at Frank. It is indeed a country of millions.

Clarke Dennis of Cobourg, Ont., and Miss Sifton, daughter of Chief Justice Sifton, were married last Monday afternoon by Rev. G. W. Kirby at Banff.

The Masons of Saskatchewan have organized a provincial Grand Lodge, with twenty-eight lodges.

Lethbridge Herald: With all due respect to Calgary, we think it was touching too high a figure when it estimated its population at 15,000 or 20,000. Of course, a ramble through the corridors of the hotels and on the C. P. R. platform would lead one to believe the population was as big as that of New York, and probably that is what our dear friend the Herald is counting on in its estimate.

Calgary Herald: A very sad death occurred at the General Hospital yesterday noon, when Harry Bragg, of Edmonton, 16 years of age, died of liver complaint. The boy was an exceptionally bright young fellow and just matriculated from the Edmonton high school, and was to have continued his studies in the east this fall. When on his way to the coast six weeks ago to spend his vacation, he was taken ill at the residence of his aunt, Mrs. Chas. Jackson, who lives just east of the city. His mother was with him at the time of his death. His father, Geo. T. Bragg, who is Dominion Express Agent at Edmonton, arrived in the city last night. The body will be taken north this afternoon.

Ponoka Herald: Dr. Grant, of Red Deer, who has returned from a trip west of Edmonton, has found as a result of indefatigable perseverance and splendid dash, a wonderful mineral spring in the mountains about 175 miles from Edmonton. It seems likely to surpass the famous springs of Banff though the water is probably of somewhat similar quality. The heat of the water, however, is much greater than that of Banff, and there is much larger flow.

## RIVAL TO BANFF HOT SPRINGS DISCOVERED.

Red Deer, Alta., Aug. 16.—Another discovery of great importance has been made in the wonderful Canadian North-West. Dr. Grant of this town being the fortunate man. Some months ago he heard a tale told by a band of Indians to the effect that a wonderful hot spring existed some hundred odd miles to the north-west of here. Last month the doctor decided to investigate and purchased an outfit in Edmonton and there obtained an Indian guide. After several days' travel he found he was being followed by a rival party in search of the hot springs. Finding he was being very hotly pursued he devised all kinds of plans to shake off his pursuers, but without success. Baggage was then thrown away; later food and scientific instruments were cast behind, and then the horses were left one by one until they had but one spouse, and still the feverish race never slackened. The trail was narrow and very dangerous, winding away into the wilds of the mighty Rockies. Rocks of enormous bulk, fallen trees and heavy brush barred the way, but all had to be surmounted and in quick

time. Finally the doctor's horse played out so he took the Indian's pony while the Indian followed behind on foot. One morning they noticed a strong smell of sulphur and knew they could not be far from the springs. Dr. Grant then gave the Indian instructions how to stake the claim and he himself went on ahead. After giving the Indian sufficient time to properly stake the springs he went to the other party of explorers and told them the hot springs they had come to find were some distance back and properly staked. These springs will rival any on the continent as a health resort and fortunately the survey for the Grand Trunk Pacific runs within a short distance of them.

## DIAMOND FIELDS OF ONTARIO

## Strange Stories Came From the Country Along the Lakes.

Fort Francis, Ont., Aug. 16.—Old mining men and prospectors in this region did not need to be told by Dr. Ami of the geological survey that great diamond wealth undoubtedly lies hidden in that part of Canada between the great lakes and Hudson Bay. In the Rainy River district, and in the auriferous valley of the Seine for "sparklers" have been obtained from Indians and French-Canadian voyagers, who had picked them up in their wanderings without any idea of their character and value.

At the hamlet of Mine Centre, in the Seine River country, George R. Douglass is the resident agent and assayer for the Rothschild interests, who are buying large tracts of land in the district that give evidence of gold-bearing quartz. Mr. Douglass was long a resident of South Africa. He says the geological conformation of the Rainy Lake and Seine territories is almost identical with that of the Kimberly district, which has given to the world the famous diamond mines.

Forty miles from the mouth of the Big Fork River, which empties into the Rainy from Northern Minnesota, are many ancient mounds whose origin extends beyond the traditions of the Ojibways. Until recently these mounds had been inviolate, for they are in a wild region but little visited by white men, and accessible only by canoe. One summer, however, a party of scientists from the University of Toronto came out to explore them. From one of the mounds on which a sturdy oak was growing, a large human skeleton, perfectly preserved, was exhumed. It was not that of an Indian, and in the cavity whence it was taken were evidences of prehistoric civilization, in the form of many articles of pottery, some stamped with unique and beautiful designs.

Around the skeleton's neck was a massive band of pure copper and on its bosom rested a curiously wrought necklace of the same metal, into which were interwoven shells and colored stones. What arrested the attention of the exploring party, however, was a stone which gleamed from the centre of a pendant to the necklace. At first it was judged to be nothing more than a clear piece of quartz, but closer examination and testing proved that it was a diamond.

Although half a dozen mounds were opened up before the party left the region, and copper ornaments and pottery were found, with skeletons in all of them, no more diamonds were unearthed.

On going out a band of Ojibways was met, to whom the articles found in the mounds were shown in the hope of obtaining traditions concerning their origin. As to the copper, the Indians were ignorant, but they granted disclaimingly when shown the pottery and the diamond. Specimens of the former, they said, could be obtained in almost any quantity from the remains of an ancient pottery works that once existed on the banks of the Big Fork, near the Big Falls, a few miles up the stream, while in the same region glittering stones of the sort the palefaces seemed to regard so highly had frequently been found.

Startled by the information, the Toronto party pushed on to the Big Falls, which marked in old days the disputed boundary between the Hudson's Bay Company and John Jacob Astor's American Fur Company. There they found an old hermit squatter, Dan Campbell. He took them to the ancient pottery field opposite his cabin and, what was more, brought from a pouch which he carried three stones of a purity and brilliancy that greatly exceeded that of the one found by his visitors. These stones he had

found in the course of his thirty years' living by the Big Fork, while scratching the surface of the pottery field with his hunting knife.

Old Dan had no idea that his finds were anything more than quartz, despite the care with which he had preserved them. So sceptical was he of his visitors' assertions that the stones were diamonds that he entrusted them to their care to be appraised in Toronto and their value sent to him. Nor was the party mistaken in its judgment. The four stones were pronounced to be real gems of an aggregate weight of twelve carats and worth \$2,500.

Mr. Douglass was sitting in the trading post at Mine Centre one afternoon when a young buck and his squaw entered to exchange pelts for provisions. They had come by canoe fifty miles down the Seine valley. Strapped to a birch bark frame the mother carried a papoose on her back. This she took off and leaned the muffled youngster against the counter while she joined in her husband's dickerings with the storekeeper.

Mr. Douglass noticed that the young redskin held something firmly in his hand, which every now and then, after gazing upon, he attempted to put into his mouth, but was prevented by the vigilant mother. Curious to see what kind of a toy the Indian baby had, Mr. Douglass pried open his little brown fist, and there lay scintillating a diamond as large as a hazel nut. There was no mistake about it. In astonishment he inquired of the squaw where she found the gem.

"Oh, it," she replied, contemptuously, in her guttural tongue, "my man picked it up when he was getting the poles for our topee up the river."

Douglass pulled out a \$20 bill and offered it to the squaw for the stone. But paper money has little significance for the Ojibway in the wilds of Canada. A gleam of avarice shot into the squaw's eye and tightened the corners of her mouth as she saw how anxious the white man was to get her baby's plaything. She shook her head and granted a decided negation.

Douglass smiled, for he knew the Ojibway character. "Give me all the chicken feed you've got," he said to the trader.

The storekeeper emptied a sack on the counter, containing about \$10.00 in small change. The squaw's eyes and those of the buck glittered.

"Here," said Douglass, as he shoved the coins towards them, "give me the stone."

In a trice the mother snatched the gem from the papoose and tossed it over to Douglass. The diamond was taken to Toronto and appraised, valued at nearly \$1,000.

To Rainy Lake town drifted Jim Ropes, a prospector for the yellow metal, after spending the money he had obtained by the sale of a gold mine discovered by him in Michigan, and also known by his name. Ropes' days of activity were nearly over, and about the best he could do was to pass judgment on samples of quartz brought to him by less experienced prospectors.

One day a thirsty French-Canadian named La Fèvre came to the camp from the Seine district. On his gaudy brass watch chain hung a sparkling stone which he had made into a charm by twisting some wire about it. He ran into Ropes in the bar room of the hotel of the camp, and with ugly demeanor demanded that Ropes buy him a drink.

They did not prosperer's eyes had caught sight of the stone dangling from the man's chain and another glance was sufficient.

"That's a pretty piece of quartz you've got there," remarked Ropes quietly. "If you'll give it to me I'll buy you all the drinks you want."

The man glowered at the prospector for an instant, undecided whether he was being gulled, but Ropes' countenance was serious, as La Fèvre tore the stone from its setting and snapped it over to his companion with a loud guffaw.

"I guess you want it worse than I do," he remarked. "Now let's get these drinks."

In two hours La Fèvre was snoring in drunken stupor on the floor of the shack, while old Ropes, with his purchase, was paddling to Fort Francis, thence to make his way back, the worse for wear and poor whiskey, but carrying in his pocket a part of the \$1,500 for which he had sold the diamond that had cost him a bar bill of 35c.

## RECORD LOBSTER CATCHES.

St. John, N.B., Aug. 16.—Remarkable catches of lobsters are reported along the northern coast of Westmorland county, beating all records of the past twenty-five years. In some cases men are making as much as \$105 per day and one man in five days caught five tons worth \$350. Much more help is wanted but the men cannot be got, the cheap rates to the West in harvest fields having lured away thousands. So large is the catch that the canneries are not able to handle all the fish, so a large number of them are being put back into the traps and onto scows. In some cases the lobsters are being used as fertilizers for the fields. The catch is general all along the northern coast and the price of the case lobsters is expected to be lower than for years past.

## GRAIN DEALERS TO TOUR.

Winnipeg, Man., Aug. 16.—A number of members of the Grain Dealers' Association leave here at 7 o'clock on Saturday morning for a tour of the wheat belt. During the tour they will visit all the principal centres in Western Canada and upon their return the association will publish an estimate of the crop for this year. They are due to arrive at Edmonton on Monday, spending the night there. Calgary will be reached on the following day, where the night will also be spent. The party is due to arrive back in this city on Friday evening and the itinerary has been so arranged to cover almost every important wheat district between Winnipeg and the Rocky Mountains.

## TREATED HIM AS OUTCAST IN JAIL.

Victoria, B.C., Aug. 16.—A curious boycott has been declared by the prisoners at the Provincial jail here against William Rausswurm, B.A., serving a nine months' sentence for theft. Rausswurm was serving a sentence at the city jail for drunkenness, while another prisoner was being held there pending a trial for forgery. This prisoner paid Rausswurm's fine, gave him a "grub stake" and trusted him with money to see a lawyer for him and also to settle several small bills. Rausswurm betrayed this trust, appropriated his fellow prisoner's money and skipped. He was later captured and given nine months in the Provincial jail. Now the other prisoners refuse to speak to him, the wardens select for him the least appetizing pieces of meat at meal times and in countless other ways he is made to see he is an outcast even in jail society. Rausswurm is the son of an English clergyman and himself an Oxford University graduate.

## MAJOR LAFFERTY.

(Calgary Herald.) Major F. D. Lafferty, D.C.A., the director of staff duties at the war office has been reported as follows: "On promotion examination of officers of His Majesty's regular forces and Canadian Permanent Force, the best of the officers of the Canadian Permanent Force was Capt. and Major F. D. Lafferty, Royal Canadian Artillery, with 1237 marks.

In administration, organization and equipment, Capt. and Major Lafferty, R.C.A., sent in the best papers and achieved the somewhat rare distinction of obtaining 8 on each of the two papers and stood third in the list of over six hundred candidates for Major, covering the whole British Empire."

Major F. D. Lafferty is only thirty years of age, and now holds the responsible position of staff adjutant at the Royal Military College, Kingston.

He spent two months in Calgary at his home last winter with his parents, Dr. and Mrs. Lafferty, to recruit his health.

He is rapidly recovering and hopes to take up his duties again when the college opens in September.

## DESPERADOES COMMIT MURDER IN CALIFORNIA.

San Francisco, Aug. 15.—The police are scouring the city for four highwaymen who robbed two men and two women on the Ocean Boulevard at Golden Gate park about ten p.m. last night, and an hour later shot and killed Fred Mullineaux in attempting to hold him up.

Mullineaux and a companion, Miss Plisa, of 1931 Golden Gate avenue, had spent the evening on the beach. According to Miss Plisa's story she and Mullineaux were walking down the boulevard and were about half way between Sheehan's Tavern and the Life Saving Station when four masked men suddenly stepped from the brush, which skirts the seaward and demanded at the point of

tools, the couple's money and valuables.

Mullineaux made a move as if he intended to resist, and was instantly shot dead by one of the masked robbers, the bullet striking him in the forehead. Mullineaux's companion fled towards the Life Saving Station.

Mounted Policemen Merchant was on the scene a few minutes later and found the body of the dead man but no trace of the highwaymen.

The killing of Mullineaux followed close after the robbery of two men and two women at Speedway Camp, whose names have not yet been given out by the police. It was also reported to the police today that four men held up and robbed a party of four on the boulevard late last night.

Mullineaux was 30 years of age, a house painter by occupation, and lived at 288 Rutledge street.

## CONTROL OF FISHERIES

Vancouver, Aug. 14.—The dual control of the fisheries of British Columbia, with its resulting conflict between the Dominion and Provincial Governments is the weighty problem which is now being carefully investigated by the members of the Canadian Fisheries Commission. No inkling of the nature of the report and recommendations which can be presented by the Commission can be secured and there is much conjecture among those vitally interested.

During the past decade numerous efforts have been made to bring about a settlement of this important matter but for one reason and another nothing has been done. In many cases the dual control has worked harmfully to the fishing industries of the province, and many disputes have arisen because of the division of authority. Especially has there been trouble in connection with trap locations and fisheries on Vancouver Island.

## NEGRO IN POSSESSION OF TRAIN

Decatur, Ala., Aug. 15. The Louisville and Nashville light train from Birmingham yesterday was practically under the control of a desperate negro. At the point of two revolvers the trainmen were compelled to obey the negro's instructions.

He was captured here. It is believed that he is wanted for some crime and was seeking in this way to escape.

## WIFE HAD NO STRINGS ON THIS NCE

Liverpool, N.S., Aug. 15.—The election petition was in court this morning and it was decided to proceed and hear the evidence adduced by the petitioner in the Cowie vs. Fielding election case and submit the question of jurisdiction raised to be dealt with by the supreme court of Canada. The first witness testified that his wife gave him \$50 to stay at home on election day but he went and voted.

## A REGINA TRAGEDY

Regina, Aug. 15.—A terrible tragedy, and whether it was accidental or intentional the taking of evidence alone will prove, occurred about 2.30 o'clock this morning on the farm of Josiah Gilbert, twelve miles south of this city.

The one fact which is not denied is that Gilbert, who is over seventy years of age, shot Darrell Henderson who came here this spring from Prince Edward Island and purchased Gilbert's farm.

Henderson was hurriedly brought to Regina hospital, but died shortly after five o'clock.

Conflicting stories as to how the tragedy occurred are in circulation. Gilbert has not been arrested here.

## WILLIAM WHYTE SICK AT VANCOUVER

Vancouver, Aug. 15.—Mr. William Whyte, second vice-president of the C.P.R. who has been on the coast for the past week, is suffering so much from the effects of a recently contracted cold that he has been unable to proceed east. Mr. Whyte is now staying at the Hotel Vancouver and will remain there until he has sufficiently recovered to leave for his headquarters at Winnipeg.

It was Mr. Whyte's intention to have left Vancouver on Sunday for the east. There is nothing serious in his condition and it is only a matter of a few days before he will be fully recovered.

HARVEST IS ON  
IN ALBERTAGrain Cutting in Progress in Nearly  
All Parts of the Province

The last weekly crop report sent out by Supt. Jamieson, for the Western division of the C. P. R., is as follows:

Maple Creek—Weather warm and showery, all grain growing well. Seeding for fall wheat will finish this week.

Gleichen—Conditions still favorable, some barley cut and oat cutting will commence about the end of this week.

Strathmore—Weather favorable. Oat crop will be heavy.

Langdon—Crops in good condition. Barley cutting commences early next week.

Crossfield—Weather warm and dry. Grain ripening quickly. Oat and barley cutting in progress this week, and wheat cutting starts about the middle of the week.

Carstairs—Weather warm and showery. All grains looking well—some cut.

Didsbury—Weather warm and dry. Some fall wheat and barley cutting being done. Slight hail storm on 12th, but no damage reported.

Olds—Cutting has started and a large quantity of barley has been harvested. Cutting of wheat and oats will commence this week. No damage.

Bowden—Weather warm and dry, barley cutting commenced. All grains looking fine, no damage.

Innisfail—Weather warm and dry. Barley cutting general. No damage.

Penhold—Crops all in excellent condition, some ready for harvesting. Outlook promising.

Red Deer—Crops in fine condition. Weather favorable with some showers. Harvesting well under way.

Lacombe—Weather warm and showery, harvesting commenced and prospects bright.

Ponoka—Weather warm and favorable. Barley now being cut, and all crops looking well.

Wetaskiwin—All crops doing nicely. Cutting in progress. Outlook very favorable.

Strathcona—Harvesting fairly well commenced, and prospects of excellent cut. Weather warm and dry.

Camrose—Weather favorable and harvest in full swing, most of barley cut and other grains getting in shape last. Straw in some places short, but heads well filled.

Bawlf—Weather warm and dry. Barley being cut. No damage.

Alix—Weather warm and dry. Barley being cut, and other grains ripening fast. Straw light but grain exceptionally good.

Stettler—Weather dry and warm. Considerable wheat and oats being cut last week. Farmers report crop lighter than last year, but better grain.

Okotoks—All grains continue to progress favorably. No damage and outlook promising.

High River—Grain ripening rapidly. Cutting will commence this week. Weather favorable.

Nanton—All grains ripening fast. Fall wheat cutting started Monday. Weather favorable. No damage.

Stavely—Weather warm and dry, with some good rains. Fall wheat cutting will commence this week.

Clareholm—Fall wheat cutting going on in many places and will be general this week. Other grains doing fine.

Leavings—All crops doing first-class. Some grain being cut. Weather favorable.

Macleod—Weather warm and dry. Barley cutting has commenced, and wheat cutting should start by the end of week.

Pincher Creek—Wheat cutting commenced and will be general this week. Barley and oats starting to turn. Weather warm and clear, with one good shower.

Cowley—Weather favorable. All grains looking well. Considerable hay has been cut.

## DAIRY RECORDS IN ALBERTA.

The Provincial agricultural department have under the guidance of C. Marker, the dairy superintendent, interested farmers in forming district dairy records associations. This valuable work should do much to weed out unprofitable cows, wasteful methods of feeding and show the weak spots in taking care of the milking cows. The following are the by-laws prepared for the individual associations.

Articles of Association.

## City News

### Local Items Around the City

—The local immigration officer reports the arrival and passing out into the great west, of a large number of homeseekers. The farmers are also very anxiously looking for helpers to assist them with the harvest which is just ripening. Domestic and female help are also in great demand.

—The death occurred at Spruce Grove on Wednesday of Mr. George Schell, aged 84 years. Mr. Schell was one of the oldest residents of that district. He is survived by a widow. For many years the aged couple have lived with their son, Mr. Joseph Schell. The funeral is being held this afternoon at Spruce Grove where interment will be made.

—The cut on the first page of the Bulletin today in the first half tone cut made in this city published in a newspaper. The cut is made by Byron of 623 First street, City, and is a credit to this enterprising new firm recently established in our city. Mr. Byron is of New York and is one of the best photo engravers in the country, as well as being a photographer of national repute. Business men can now have their cuts made in the city and have them made better than they can be produced elsewhere.

—The death occurred here last night of Isaac J. Scholli, until recently a resident of Clearwater. The deceased came from Stillwater three years ago, and leaves a large family to mourn his death. His wife predeceased him two years ago. The history of his illness was rather peculiar. On July 13 he scratched a pimple on his nose, then followed acute inflammation. He consulted the doctor at Ledne, and after a week's interval they sent him to Edmonton under the direction of Dr. Sloan, who recognized at once the high infection of the disease, and personally conducted him to the isolation hospital. In spite of all surgical science could suggest he passed away. The disease resulted in abscesses within the brain.

### SOCIAL AND PERSONAL

Rev. A. S. Tuttle and wife, arrived last night from Nova Scotia, and will spend a few days in the city.

### METHODIST DISTRICT MEETING

The financial district meeting of the Edmonton district met in Grace Methodist church yesterday. A good attendance of both ministerial and lay delegates were present. The financial standing of the missions within the district, were considered, and the amounts which should be appropriated by the missionary board to the support of such missions were recommended. Two charges, Edmonton Second (Grace church) and Sturgeon, were reported as having become independent circuits. Interesting discussions took place in regard to temperance, summer schools, and evangelistic work. A committee was appointed to consider the question of holding a summer school at White Horse lake next summer.

### TWENTY MINUTES OF FREELON

As reported in yesterday's edition another sensation was created yesterday at the penitentiary by the attempted escape of Owen Williams.

The prisoner was engaged in carrying bricks from the rear of the penitentiary building under the instruction of Mr. Turgeon, the engineer into the basement through the main entrance. At the door of the main entrance he threw down the bricks and made a dash for the scrub some hundred yards away across the railway track. Mr. Turgeon, who was immediately behind the prisoner, raised the alarm. The guard called to him, and fired but he succeeded in reaching the cover of the woods.

The other prisoners who were engaged in the yard were immediately sent to their cells and all the guards turned out in search of the runaway.

The escape was made at 2:20 but before twenty minutes had elapsed the prisoner was captured and back in his cell. The R.N.W.M.P. were notified at once but he was caught before they had time to assist.

Williams is serving a term of five years for cattle stealing. He comes from Red Deer.

### A SIGN OF BUILDING ACTIVITY

As an illustration of the building activity in the city Mr. A. Z. McCauley has moved more than 140 buildings during the summer. He has two gangs regularly employed and on several occasions has utilized a traction engine for moving the smaller buildings. Last week he handled nine buildings. Most of those removed have been sold to make room for new and usually larger and more costly buildings, either residences or business blocks. Each building removed therefore means practically the erection of a new building for

residential or business purposes. The buildings so replaced are purchased by owners of unoccupied lots, removed thither, overhauled and repaired and again brought into service.

### FRA DIAVOLO

The Spokesman-Review of Spokane, referring to the performance of Fra Diavolo, which will open the engagement of the Rosmans at the Thistle Rink on Monday evening, states:

"The Rosman Opera Company has been keeping the good word for the last of the feast. Its presentation of 'Fra Diavolo' last night was a genuine treat. The music of the opera is itself of a very pleasing sort, and all the members of the company were in perfect touch with it at every point. Lucia Nola, Hazel Davenport, Hillard Campbell, F. W. Walters and John A. Dewey sang most acceptably the various roles assigned to them and were deserving of the extremely liberal applause, which was given. A triple recall of the song in the finale of the second act was testimony of the audience's hearty appreciation. Lucia Nola as Zerlina, daughter of the inn-keeper, was particularly effective. Hillard Campbell made an excellent Fra Diavolo, his acting no less than his singing showing him to be a finished artist. Art Burgess and Carl Hoffman, as Beppo and Giacomo, bandits, followers of Fra Diavolo, could hardly have been excelled as comely producers. Especially in their imitation of Zerlina's disrobing scene and song accompaniment did they capture the house, their burlesque of grand opera, being one of the most amusing things heard during this engagement of the Rosmans. The chorus singing was strong and melodious, and there was a snap about the whole performance in perfect accord with the play."

The Seat Sale for Fra Diavolo and all the other operas is now open at Archibald's Drug Store.

### VISITORS PLEASED WITH THE CITY

Messrs. D. McCrimmon, and John Toimie, of Kincardine, Bruce County, Ont., are visiting friends in this city this week. The former is visiting his brother, Malcolm McCrimmon, the pioneer railway contractor, who is now pushing his work of grading a large section of the C.N.R. line west of the city and who during the last twenty-five years has assisted in building most of the important lines in the west. The doctor had not met his brother for twenty-five years during which time both have passed from a smart youth to be almost classed as well preserved old men.

Mr. Toimie visits his sister Mrs. McKinnon, of Eighth street west, and, though a stranger to most of our citizens, is not a stranger to many in West Bruce, which constituency he represented for three terms in the Dominion House of Commons, and where he was justly popular.

Both gentlemen are surprised and delighted with our city, our country and our climate, and have no hesitation in predicting a great future for Edmonton.

The Doctor has practiced his profession for about thirty years in Kincardine and has won a very large business and enviable reputation as a surgeon, but it is quite possible that he will come back to stay in this district. The Doctor, his brother and Mr. Toimie are spending a few days at Banff and other points south.
